## PRESCRIBER

Prescriber Last name – First name .....

Address – Country .....

Phone / Direct phone ..... Fax .....

Prescription date ..... Signature / Stamp .....

Copy (name and address) .....

Results will **only** be sent to the prescriber (and doctor in copy if requested)

## PATIENT

Birth name ..... First name .....

Marital name ..... Sex .....

Date of birth ..... Matricule .....

Address - Country .....

Patient affiliated to CNS/UCM  Yes  No\*

\*If not-affiliated to CNS/UCM, the patient will receive an invoice from the laboratory which they can send to their insurance company.

## INFORMATION

This form summarizes the most common indications and genetic tests classified by clinical area or speciality.

**Please complete the request form and the informed consent below. As a reminder, the signatures of the patient AND the prescriber are mandatory for genetic testing.**

For any question regarding a genetic analysis that you wish to prescribe, particularly those not listed in this form, you can reach us at the following address: [ncg-avis-prescription-genetique@lns.etat.lu](mailto:ncg-avis-prescription-genetique@lns.etat.lu).

**Note that specific request form or genetic consultation may be required for some genetic tests.**

**Clinical data are mandatory.** Please **specify the indication** justifying the request. This will allow the laboratory team, after consultation with the referring geneticist, to **better target the appropriate genetic analysis for the patient.**

For a request for **constitutional oncogenetic** test or **prenatal testing** please use the appropriate form available on our website.

## Clinical data

**Urgent Analysis :**  Ongoing pregnancy  Neonate  Other reason, specify : .....

Index case

Related - Name of index case: ..... Link to index case:  Father  Mother  Brother/Sister  Other, specify:.....

Symptomatic patient :  Yes  No\*

Known mutations : attach report of the index case  **DNA extraction and storage**

*\*The prescription of genetic tests for pre/asymptomatic patient is limited to geneticist after genetic counselling*

## INFORMED CONSENT

By signing below, I consent to the genetic analysis as indicated on this request form to determine the genetic cause of the medical condition mentioned. I agree to send the results to the prescribing physician.

I was informed by the signing doctor of the medical necessity, potential benefits and limitations of the planned genetic test. In addition, the possible consequences of communicating the test result (e.g., psychological burden) have been discussed.

With your consent, unused sample material and tests results will be stored. - I accept that they may be used to verify the results obtained, for subsequent analyses and as part of the laboratory's quality assurance. - I accept that they may be used for research and scientific publication in an anonymous form or as part of university teaching.	<input type="checkbox"/> Yes <input type="checkbox"/> No  <input type="checkbox"/> Yes <input type="checkbox"/> No
